Overview

Are CELLPAC lithium batteries ul 2054 & 62133 certified?

Battery designs are of limited complexity, but available at minimal NRE cost and with minimal development effort. The wide range of our state-of-the-art CellPac LITE battery packs includes batteries with UL 2054 and IEC 62133 certifications, thereby significantly reducing the design-in cost and time-to-market for our customers.

What is battery packaging?

Our battery packaging complies with the current hazardous goods regulations and is specially adapted to your hazardous goods. Battery modules for lithium-ion batteries consist of several battery cells that are connected to each other. Their production takes place in automated assembly lines (partly under dry room or cleanroom conditions).

How are lithium-ion batteries made?

Battery modules for lithium-ion batteries consist of several battery cells that are connected to each other. Their production takes place in automated assembly lines (partly under dry room or cleanroom conditions). Very high speed and precision as well as maximum cleanliness are important factors for economical production of the modules.
