

Global flow battery production value

Overview

What is the global flow battery market size?

The global flow battery market size was valued at USD 328.1 million in 2022. This market is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030, primarily driven by the rising demand for energy storage systems globally.

What is the expected CAGR of the flow battery market?

The global flow battery market size was valued at USD 328.1 million in 2022 and is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030. The rising demand for energy storage systems globally is the primary factor for market growth.

Are flow batteries a challenge for market growth?

The high costs of installation and maintenance expenses for flow battery systems present a significant challenge for market growth. Flow batteries face limitations in terms of energy density compared to other battery technologies, such as lithium-ion batteries.

What are the key market restraints for the global flow battery market?

The high upfront cost indulged in the manufacturing and installation of the flow batteries acts as key market restraint for the global flow battery market. Also, the low power density as compared to the lithium-ion batteries acts as the key market restraint for the global flow battery market.
