

High-efficiency solar curtain wall system in Cebu Philippines

Overview

What types of curtain wall systems are available in Metro Manila?

Curtain wall systems are available in a variety of colors and finishes including standard and customized anodized finishes and powder coated colors. Kima Glass is the first glass company outside Metro Manila to offer customized stained glass using imported materials.

How can solar power help businesses and industrial facilities in Cebu?

Businesses and industrial facilities in Cebu have also embraced solar power solutions to enhance their energy efficiency and reduce operational costs. Notable examples include commercial buildings with large-scale solar installations that have achieved substantial energy savings and improved sustainability.

Which companies are advancing solar power solutions in Cebu?

Several companies and organizations play a crucial role in advancing solar power solutions in Cebu: Local Solar Providers: Companies such as Philergy, Solar Switch, and Solar Philippines are prominent players in Cebu's solar market. These providers offer a range of solar solutions, including system design, installation, and maintenance services.

Why are curtain walls important in the Philippines?

They shield the building from harsh weather conditions, ensuring the interior remains safe and dry. Most curtain walls in the Philippines integrate features like double glazing and thermal breaks to improve energy efficiency, leading to lower utility costs.
