

High quality factory price 5.5 kw inverter company

Overview

Is a 5 kW inverter worth it?

It could be that the system will spend such little time providing above 5 kW, once shading and losses are taken into account, that it's not worth the cost of getting the next-largest inverter.

How much does a 5kw solar inverter cost?

For example, decent-quality 5kW solar inverters, which can support up to 6.6kW of panels, start at \$1,000 for budget single-phase models (e.g., Sungrow, Goodwe, or Solis) and up to \$2,000 for premium single-phase models (e.g., Fronius or SMA). If you want a 3-phase, 5kW inverter; add around \$400 to those prices.
