

# High quality isolator breaker in Auckland

## Overview

---

What is a main electrical panel isolator?

Main Electrical Panel: Isolators are installed in the main electrical panel to disconnect the entire home from the power supply. This is crucial for safely performing maintenance or upgrades to the home's electrical system.

Does nhp offer an enclosed isolator?

NHP offer various enclosure options for indoor and outdoor applications, with current ratings up to 800A as standard (higher available as custom), making it easy to find the right enclosed isolator for your operating conditions.

What is an enclosed isolator?

Enclosed isolators provide a reliable and robust solution for electrical isolation needs, ensuring a high level of protection for personnel and equipment.

What is a weatherproof isolator?

Our weatherproof isolators are built to provide optimal performance, ensuring the protection of electrical circuits and equipment in demanding environments. We have vast range of outdoor isolators with an IP66 rating are designed to offer excellent protection against harsh environmental conditions.
