

Home balcony wind and solar power generation system

Overview

How does balcony solar work?

Just plug in! It's really that easy. "Balcony Solar" is a totally independent power system, so to use it you'll need to plug your devices directly into the portable power station and it basically operates like a giant battery. Remember, every watt of electricity you generate from here is free fuel for your favorite device!.

Is balcony solar off-grid?

If you want to brag about your new "Balcony Solar" install, it's true that any device connected to the power station is "off-grid". If you have a monitoring system, you can track your power generation, and leverage peak charging times with extra sun exposure. Most importantly, enjoy the empowering feeling of making your own power!.

What is a solar-wind hybrid system?

The solar-wind hybrid system combines two renewable energy sources together, solar and wind. In this system, wind turbines and solar panels complement each other to generate clean and stable electricity. Wind power tends to be stronger during the night and in winter, while solar power is at its peak during the day and in summer. How cool is that?

.

Is balcony solar reshaping the solar industry?

This change has exploded adoption and is reshaping the industry. In the United States, off-grid "Balcony Solar" systems are allowed but grid-tied "Balcony Solar" is not allowed by the US electrical code because back-fed outlets are prohibited — except for in Utah (March 2025)!
