

# How many 5G base stations are needed for Kuala Lumpur Communications

## Overview

---

Is Malaysia a good 5G network?

one of the best-performing 5G networks worldwide. According to Ookla's Speedtest Intelligence® Q4 2023 data, Malaysia continues 5G network performance has been globally recognised. 5G helped Malaysia to climb 59 places in the Ookla Speedtest Intelligence Global Index ranking for mobile services across all technologies, from num.

When did Malaysia start implementing 5G?

Although Malaysia began rolling out 5G in 2021, it fell behind these nations in terms of when 5G networks would be implemented and have a sizable population coverage.

Is 5G a problem in rural areas in Malaysia?

Key government initiatives, particularly the National Digital Network Plan (JENDELA), combined with investments by telecommunications operators, have driven this growth. However, challenges remain in rural areas, where coverage is still inconsistent. Malaysia's mobile download speed increased 2.3 times as 5G adoption surged.

Why is 5G coverage slowing in Malaysia?

A slower growth of 5G coverage has resulted from Malaysia's delayed entry into the 5G market and contracting delays, which have limited the rate at which 5G base stations may be deployed. This variation in deployment times and coverage may have several effects.
