

How many manufacturers are there of Harare power base stations

Overview

Where is Harare power station?

Harare power station is an approximately 90-megawatt (MW) coal-fired power station in Harare province, Zimbabwe. A repowering project is proposed. The undated satellite photo below shows the plant in Kopje, in the Workington area of the capital city along Coventry road. Your browser is not compatible with Google Maps v3.

Who owns electricity in Zimbabwe?

Generation, transmission and distribution of electricity in Zimbabwe is the sole responsibility of the state owned Zimbabwe Electricity Supply Authority, (ZESA). ZESA owns four thermal power stations, of which the biggest is the coal-fired Hwange Power Station in the west of the country capable of producing 920 MW of power.

Will Zimbabwe re-power Harare power station?

As of February 2019, the Zimbabwe Power Company (ZPC) was set to commence the re-powering project for Harare Power Station (generator number 2) in the first quarter of 2019 to add 60 MW to the national grid and cut imports. ZPC secured a US\$176 million loan from Afreximbank.

How many thermal power stations does ZESA own?

ZESA owns four thermal power stations, of which the biggest is the coal-fired Hwange Power Station in the west of the country capable of producing 920 MW of power. The other three thermal stations in Harare, Bulawayo and Munyati are considerably smaller only being able together to deliver 270 MW of generation capacity.
