

How many signal base stations are there in Honiara

Overview

How did radio work in Honiara?

In every Honiara settlement and suburb, and every village in the nation, radios received service messages and local and international news, Solomons music was played, and a potent communication network was at work. The SIBC remains the dominant radio network, although there are now also four independent FM services.

How many radio stations are there in Solomon Islands?

At a stage when many countries had moved on to television, Solomon Islands discovered radio. Solomon Islands now has two SIBC stations broadcasting from Honiara, one from Gizo (Western Province), and one from Lata (Temotu Province), plus FM stations in Honiara.

Why are metal pylons being built in Honiara?

HONIARA, July 8 (Xinhua) -- Near a scattering of once-isolated villages just 30 km from Honiara, capital of the Solomon Islands, metal pylons are being erected to weave a modern network for the South Pacific country. The communication base stations are spotted through palm groves and sparsely populated grass huts, next to ancient rainforest.

How many 3G/4G base stations are there in the Solomon Islands?

The project plans to construct 161 3G/4G wireless communication base stations on 35 major islands in the Solomon Islands' nine provinces. The construction, to last for three years, started on Aug. 28, 2023, with the first telecommunication tower launched on March 22 in Sali village. (Xinhua/Zhang Jianhua) By Zhang Jianhua, Zhang Na
