

# How to install UPS battery cabinet and battery rack

## Overview

---

How to install UPS & battery cabinet?

1. Installation sequence is as follows: 1.1 First, determine the installation location of the UPS and battery cabinet upon arrival at the site. 1.2. Install the battery connection Wires.

How do I install a UPS battery?

For some UPS systems, batteries may be pre-installed, while others require manual installation. Follow the manufacturer's guidelines for inserting and connecting the batteries correctly. Ensure the battery connections are secure and the battery compartment is properly closed.

How do you install a battery cabinet?

Align the cables on the battery terminals so that the cable lug will not contact any part of the cabinet even if the battery is moved. Keep the cable away from any sharp metal edges. Install the battery cables so they cannot be pinched by the battery cabinet or UPS doors. BATTERY CABINET INSTALLATION.

How to store ups without batteries?

The UPS or external battery cabinet without batteries may be stored at - 20° to 60°C (- 4° to 140°F). Ventilation: The air around the UPS must be clean and free of dust, corrosive chemicals, and other contaminants. The air must be free to circulate around the UPS and battery cabinet(s).
