

# How to use base station batteries in the wild

## Overview

---

How do you charge a Yeti 200X portable power station?

If you're camping with a car, then the Yeti 200X Portable Power Station will have most bases covered. There are three ways to charge the unit: plugging it into a wall at home before you leave, from your car via a 12V charging cable or by solar panels (sold separately). It has enough capacity to charge a smartphone up to 20 times.

How powerful is a Yeti 700 power station?

For hosting larger groups, such as at a base camp, the Yeti 700 Power Station is portable, powerful and durable enough to deal with all the mud, dirt, dust and weather you should expect while camping in the wild. The 600W AC power output has 1,000W surge abilities, which can run large items such as portable fridges, power tools and barbecue grills.

What is the best portable power station?

It has a hard plastic exterior with rounded edges and corners, meaning it's durable and easy to slide into a backpack. Biolite is also a Climate Neutral Certified brand, making it a sustainable choice. If you're camping with a car, then the Yeti 200X Portable Power Station will have most bases covered.
