

# Huawei Algeria New Energy Storage

## Overview

---

Why did Huawei start a factory in Algeria?

Among other things, Huawei opened its first African factory in Algeria, employing Algerians to assemble products for and beyond the Algerian market. It also launched an OpenLab for conducting research and development (R&D) activities in Egypt and established partnerships with several universities in the region to train local students.

What are Huawei's intelligent lithium battery solutions?

Huawei's intelligent lithium battery solutions provide dynamic peak shifting, transforming traditional backup power systems into efficient energy storage solutions that enhance system flexibility and reliability.

What is a 5G energy storage system?

An energy storage system with higher energy density is needed in the 5G era. Intelligent lithium batteries that combine cloud, IoT, power electronics, and sensing technologies will become a comprehensive energy storage system, releasing site potential.
