

# **Huawei Solar Energy Storage Charging Pile**

## Overview

---

How many Huawei Supercharge charging piles will be installed in China?

(Yicai) Dec. 8 -- Huawei Technologies will join hands with its clients and business partners to install over 100,000 Huawei SuperCharge charging piles along major roads in China next year. The project will touch more than 340 Chinese cities, Hou Jinlong, president of Huawei Digital Power Technology, said during an industry forum yesterday.

What is Huawei Supercharge?

Founded in 2021, the unit of the Shenzhen-based telecoms giant focuses on clean energy generation, data centers, and electric mobility. Huawei launched the SuperCharge platform this year to enable a range of more than 200 kilometers after just five minutes of charging.

How many charging piles are there in China?

China had almost eight million charging piles as of Oct. 31, up 69 percent from a year ago, per statistics from the China Electric Vehicle Charging Infrastructure Promotion Alliance. The figure includes more than 2.5 million public charging piles, rising by more than half.

How many NEVs per charging pile in China?

Based on the above data, China has 2.3 NEVs per charging pile. The Ministry of Industry and Information Technology said earlier that charging pile market could grow so the ratio could be one car per charging pile by 2030, five years after reaching a ratio of two to one in 2025.
