

# **Hungarian energy storage solar power station**

## Overview

---

Where is Hungary's largest battery energy storage system located?

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Százhalombatta, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

What is the largest solar power plant in Hungary?

The Mátra Solar Power Plant in Visonta was completed in 2015, and it spans 30 hectares (around 0.12 square miles). Its total capacity is 16 MW, allowing it to power 9,000 homes. Until 2019, it was the second-largest solar power project in Hungary.

Does Hungary have a solar energy program?

Hungary's advancements in its solar energy program are evident in how quickly the highest capacity solar power plants have been outdone by newer plants, as shown throughout the article. Hungary is currently experiencing rapid advances in solar power.
