

Hungary Pécs energy storage customer company

Overview

Does Hungary have a regulatory framework for co-located Bess projects?

Historically, Hungary's regulatory framework did not provide clear guidelines for the integration of co-located BESS projects. This lack of specific regulation created uncertainty for investors and developers, hampering the widespread adoption of these energy storage solutions.

What changes have been made to the Hungarian transmission system?

Recent regulatory developments, particularly the amendments to the Hungarian Electricity Act and the subsequent updates to the Hungarian Transmission System Operator MAVIR's Operational Code, have now established a more accommodating framework for the deployment of these systems.
