

# **Integrated AC DC power supply for solar container communication stations**

## Overview

---

What is PCS power conversion system energy storage?

PCS converter for battery energy storage in commercial and industrial application. PCS power conversion system energy storage is a multi-functional AC-DC converter by offering both basic bidirectional power converters functions of PCS power and several optional modules which could offer on/off grid switch and renewable energy access.

Who makes energy storage PCS power conversion system & lithium-ion battery system?

Both Energy Storage PCS power conversion system and Lithium-ion Battery System are made by SCU in house. As a hybrid inverter supplier, we could support your PCS battery storage business from power generation, through transmission and distribution, and all the way to users. 50kW power module based modular design achieves 50-250kW PCS system.

Does SCU offer a power conversion system for battery energy storage?

SCU provides PCS power conversion system for battery energy storage in commercial and industrial application. With modular design and multi-functional system, our hybrid inverter system can offer on/off grid switch and renewable energy access. Contact SCU for your energy storage PCS now!.

What is a PCS power converter?

Ranging from 50kW to 250kW, the PCS converter well fits the requirement of Battery Energy Storage in commercial and industrial applications. Both Energy Storage PCS power conversion system and Lithium-ion Battery System are made by SCU in house.

## Integrated AC DC power supply for solar container communication s
