

# Is there any solar power station generator in Tunisia

## Overview

---

Tunisia has already awarded contracts for four utility scale PV projects with a total generation capacity of 1.7GW. The solar farms are expected to become online during either 2025 or 2026. How many MW is a solar power system in Tunisia?

It is subject to authorisation by MIEM and is set by Decree No. 2016-1123: 10 MW for solar PV and solar thermal; 30 MW for wind energy; 15 MW for biomass; and 5 MW for projects using other renewable resources. Box 3. Addressing power system flexibility in Tunisia.

When will a solar power plant start in Tunisia?

Image for illustration purposes. Tunisia: Construction on Tunisia's 130 MW Segdoud solar photovoltaic (PV) power plant under the public-private partnership (PPP) model in Redeyef, Gafsa Governorate is set to start in the second quarter of 2025.

Will the got build a power plant in Tunisia in 2024?

In 2024, the GOT is also expected to launch a tender for the construction of at least one 470-550 MW combined-cycle power plant in Skhira (south Tunisia) as an IPP. In May 2018, the Ministry of Energy and Mines published a call for private projects to build renewable power plants with a total capacity of 1,000 MW (500 MW wind and 500 MW solar).

Does Tunisia have a potential for solar power?

Tunisia plans to invest US\$294m per year in renewable development to expand its renewable production by 500 MW annually. Luckily the country has enormous potential. A study found a possibility of 840GW of PV potential and 1000GW of CSP (concentrated solar power).

## Is there any solar power station generator in Tunisia

---

Tunisia greenlights four solar PV projects totalling 500 MW.

Mar 27, 2025 · The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a combined capacity of 500 MW. France's ...
