

# Italian MW energy storage container price

## Overview

---

How much does energy storage cost in Italy?

From ESS News The results of Italy's main grid capacity market auction for 2025, published by Terna, show that energy storage represented 51.1% of the 174 MW of new capacity assigned. Thermoelectric plants made up the balance, with the new capacity secured for €67,500 (\$72,900)/MW per year, for a total cost of €11.75 million.

When will Italy's new energy storage capacity procurement auctions take place?

Terna's thinking. The date is set. The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's president for grid development strategies, Francesco Del Pizzo, has confirmed.

What is Italy's main grid capacity market auction for 2025?

Italian electricity transmission system operator Terna has published the results of 2025's main capacity market auction. From ESS News The results of Italy's main grid capacity market auction for 2025, published by Terna, show that energy storage represented 51.1% of the 174 MW of new capacity assigned.

How is Italy accelerating its energy transition?

Italy is accelerating its energy transition with ambitious targets and a robust policy framework, aiming to deploy 71.5 GWh of energy storage capacity by 2030. A central element of this strategy is the MACSE mechanism, whose first auction is expected soon.

## Italian MW energy storage container price
