

# Liechtenstein cylindrical solar container lithium battery equipment manufacturing

## Overview

---

What is a lithium battery tour?

The tour will showcase the company's complete suite of intelligent lithium battery equipment solutions spanning from laboratory research to large-scale production, highlighting significant technological breakthroughs in cutting-edge fields including solid-state batteries and lithium-metal batteries.

What are the assembly lines for lithium Pouch Cells Production?

Our assembly lines for lithium pouch cell production are composed of several process units integrated together to enhance cell consistency, reduce product handling, and increase cell production.

What is a lithium ion pouch cell machine?

A lithium ion pouch cell machine is a kit of machines that automates the production of lithium ion pouch cells. It includes processes like electrode cutting, cell stacking, filling, and degassing. These machines can be integrated into assembly lines to enhance cell consistency, reduce product handling, and increase cell production.

Where is mikrouna launching its 2025 global lithium battery innovation tour?

Excellence, boutique strategy. Mikrouna is set to embark on its 2025 Global Lithium Battery Innovation Tour, with planned appearances at major industry exhibitions across Australia, India, France, and Italy.
