

Lithium power station factory in Atlanta

Overview

Could a giant electric battery factory be built in Atlanta?

A clean energy company is abandoning a plan to build a giant electric battery factory in Atlanta's suburbs after it shifted to buy a solar panel plant in Texas
ATLANTA (AP) — A clean energy company is abandoning a plan to build a giant electric battery factory in Atlanta's suburbs after it shifted to buy a solar panel plant in Texas.

Will a new battery factory in Atlanta bring 700 jobs?

A Norwegian battery company has been working since 2022 to open a supersize factory outside of Atlanta that will bring more than 700 jobs to the region. Freyr Battery is developing a manufacturing process for lithium-ion batteries that it says will be less expensive and have less waste than the processes many competitors use.

Will Freyr build a Giga America battery factory in Georgia?

FREYR Battery (NYSE: FREY) has scrapped plans to build a \$2.6 billion battery energy storage system factory in Coweta County, Georgia – here's why. FREYR told officials in the Atlanta suburb of Newnan on Thursday that it wouldn't build the "Giga America" battery factory in Georgia that was expected to employ more than 700 people.

Where did SK Innovation build a battery plant?

Korean firm SK Innovation built a \$2.6 billion battery plant in Commerce, northeast of Atlanta and hired 3,000 workers, but later laid off or furloughed some workers. Hyundai Motor Group has started production at a \$7.6 billion electric vehicle and battery plant near Savannah, with plans to hire 8,500 workers.
