What is the best power bank?

I've found the best power banks usually come from Anker, but newer brands like Cuktech and Iniu are also starting to make a name for themselves. Anker's A1383 20,000mAh power bank is my top pick for its hefty battery capacity, fast-charging and built-in cable, but the Iniu P41-E2 10,000mAh power bank is a nice budget portable charger.

What is a power bank & how does it work?

A power bank, alternatively referred to as a portable charger or an external battery pack, serves as a mobile device capable of storing electrical energy. It is designed to recharge electronic devices, including smartphones, tablets, laptops, and other gadgets, in instances where they lose their battery charge.
