

# **Low-pressure containerized solar energy storage for oil platforms in South Africa**

## Overview

---

What are solarepc containers?

The containers are fully integrated plug-and-play off-grid systems with many advantages. SolarEPC container solutions offer the quick installation of a modular, off-grid, solar power system. These mobile systems are ideally suited for remote locations, rural electrification and temporary installations.

What is solar EPC's scalable lithium-ion containerized energy storage system?

Solar EPC's scalable Lithium-Ion Containerized energy storage system ideal for off-grid and renewable energy storage provides invaluable flexibility.

What is LZY solar storage?

LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.

Does SolarReserve need a natural gas backup?

SolarReserve's unique solar + storage technology does not require any natural gas backup Storage allows the facility to produce more than twice as much net annual output (gigawatt hours) than an equivalent sized photovoltaic (PV) solar project Solar thermal energy storage technology enables reliable, on-demand, energy production - even after dark
