

# **Low-pressure type folding container for cement plants**

## Overview

---

What are cement storage silos?

Cement storage silos are on-site storage containers that used for the storage and distribution of various types of cement mixtures. Spiral steel silos for cement storage come in a variety of sizes, which makes them ideal for both large-scale and small-scale cement plants.

What is the role of storage and transportation system in cement plant?

In each section of cement plant, storage and transportation system plays a decisive role. For example, raw material homogenization and transportation, clinker storage and transportation, as well as finished cement storage, conveying and distribution. SRON provides bulk material storage and transportation system solutions for cement plant customers.

What type of storage silo does AGICO cement provide?

AGICO Cement provides spiral silo, welded silo, bolted silo storage solution according to our customer's local condition and equipments. As one of the most successful storage silo solution manufacturers in China. AGICO Cement storage silo supplies various storage silos for bulk materials storage.

What is the storage principle of a portable cement silo?

The storage principle of the portable cement silo is quite easy, since the components can be stored in a warehouse until the device is needed at another building site. As a necessary equipment of cement storage silos, blowers are necessary for both the permanent and the portable cement silo.
