Overview

How many greenhouse projects has Harbest installed in the Philippines?

Since 2002, Harbest has been trusted with installing over 2,500 greenhouse projects all over the Philippines.

Do solar greenhouses perform well under different climate scenarios?

Solar greenhouses are currently the most energy-intensive agricultural sector. In literature, there is no worldwide mapping of solar greenhouse performance under different climate scenarios. This study analyzes the performance of a Venlo solar greenhouse for 48 localities around the world.

Is there a solar greenhouse in Cosenza (Italy)?

The solar greenhouse analyzed is existing and located in Cosenza (Italy), it is a Venlo-type greenhouse, characterized by a single span. The modelling of this greenhouse has been extensively studied, by analyzing different types of modelling, subsequently validated, in the study (Baglivo et al., 2020).

How to design a solar greenhouse?

The design of solar greenhouses is a challenging task and requires a thorough study of the annual climatic and microclimatic parameters of the places where the greenhouses are built, determining the shape, orientation, and materials of which the envelope is composed, even before installing an air conditioning system.
