## Overview

---

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

What is a concealed solar roof tile system?

A Concealed solar roof tile system that generates clean energy without altering the design of your home. Volt is purpose-built for tiled roofs, making it ideal for new homes or premium re-roofing projects. Works with Bristle Roofing profiles to match a range of tile designs and colours. Your solar system becomes part of the roof, not an add-on.

What are solar roof tiles?

Like solar panels, solar roof tiles are designed to capture the energy from the sun that is shining on your roof and turn that energy into a usable power source for your home.

What is volt solar tile?

“Volt Solar Tile is the ultimate solution for homeowners who want a seamless solar solution for their homes. Its durability and ease of installation are unmatched, making it a top choice in the rapidly growing clean energy market.” Learn how Volt solar roof tiles can work for your project.
