

# **Mobile Energy Storage Container High-Pressure Type Manufacturer**

## Overview

---

Which storage solutions are available for self-produced green hydrogen?

This storage solution enables safe intermediate storage and flexible transportation of self-produced green hydrogen. Our pressure vessels are available individually, in customized configurations and in Multi Element Gas Containers (MEGC) in 20, 30 and 40 foot variants. Do you need something more?

Compressed gas storage in sea containers.

Why should you choose a stationary & mobile storage solution?

Customers receive stationary and mobile storage solutions for their individual storage requirements - naturally in accordance with the highest security standards. This storage solution enables safe intermediate storage and flexible transportation of self-produced green hydrogen.

What type of tank storage system is suitable for a light vehicle?

These vertical systems are suitable for installation behind the cabin of the vehicle and adaptable to 35 or 70 MPa pressure level. FORVIA is a pioneer in complete Type IV horizontal tank storage systems installed under the floor of light vehicles, for optimized payload, available space and autonomy.
