

# **Mogadishu Communications Branch officially launched the first 5g base station at 2MWH**

## Overview

---

Is 5G a major technological milestone in Somalia?

Credit SUPPLIED MOGADISHU (HOL) — A major technological milestone was reached in Somalia on Thursday as Hormuud Telecom unveiled its 5G services, catapulting the East African nation into a new era of digital connectivity.

Does Kyocera have a 5G base station?

Kyocera Corporation (Kyoto, Japan; President: Hideo Tanimoto) today announced that it has officially begun the full-scale development of an AI-powered 5G virtualized base station, with plans to commercialize the technology. As digital transformation (DX) accelerates globally, 5G mobile networks have become a critical societal infrastructure.

What is China's first 5G base station?

Based on these solid foundations, they have set up Sichuan's first 5G base station, West China's first 5G experimental network based on international standards and multiple base stations, and China's first carrier-grade 5G open lab in Chengdu.

How many 5G base stations are there in Chengdu?

With 61 Standalone (SA) 5G base stations along the way, Chengdu's Second Ring Road is entirely covered by 5G networks. This project not only brings 5G close to ordinary people, but also creates a sound environment for the development and testing of innovative applications.
