

Monaco household energy storage power supply customization

Overview

Who owns the electricity in Monaco?

Monaco's sole national power company is Société Monégasque de l'Electricité et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services. SMEG is 60% owned by Engie, 20% by the State of Monaco, 15% by EDF, and the rest by private investors.

What is energy in Monaco?

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco. Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France.

Why should you choose Reco energy equipment for residential use?

RECO offers a complete range of energy equipment for residential use. The best solutions adapted to the energy needs of each family and each home. In response to the current challenges of high household electricity costs and unstable power supply, we offer an integrated green energy home solution that combines photovoltaics and energy storage.

How can energy storage help you save on electricity costs?

Our energy storage system is equipped with advanced intelligent software that can automatically adjust power storage and release based on power demand and grid electricity price changes, achieving intelligent electricity cost management. Make your life smarter and help you effectively save on electricity costs.
