

Monaco solar panel aluminum frame manufacturer

Overview

Why do solar panels need aluminium frames?

The aluminium frames around the solar panel is an important but often ignored component of a solar panel. Aluminium profile solar panel frame and mounting bracket are normally used to seal and fix solar battery components.

Who makes a solar panel aluminum frame?

Wellste Aluminum has manufactured and supplied solar panel aluminum frame for over 20 years. 30 engineers, 10 years of aluminum industry working experience can offer you the best solution for your solar panel and solar system project.

How many solar panel manufacturers are there?

Companies involved in Frame production, a key sourcing item for solar panel manufacturers. 154 Frame manufacturers are listed below.

What are solar panel frames made of?

Most of the solar panel frames we provide are made from anodized aluminum due to the strength, durability, and resistance of the material. Anodized aluminum is a non-conductive material which causes no interruptions in the normal functioning of solar panels. It has a high level of tensile strength to resist winds, snow, and other natural elements.
