Overview

What is a solar tile manufacturer?

As a solar tile manufacturer, we offer innovative solutions to meet your solar product needs. Our solar tiles integrate advanced solar cell technology and can be a direct replacement for traditional tiles as part of a building's roof, providing clean, renewable energy for your home.

What are solar roof tiles?

Solar roof tiles (or photovoltaic roof tiles) are a way to seamlessly integrate solar technology into your home without compromising the natural design of your home. It works on the same principle as traditional solar panels. Therefore, solar roof tiles combine the functionality and aesthetics of BIPV, allowing for uniformity of design!.

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

How do solar roof tiles work?

Solar roof tiles combine roofing materials and solar modules into one durable building material. This way, the solar roof tile can have a beautiful, fully integrated edge-to-edge appearance while still acting as an energy-generating unit. Solar roof shingles work on the same principle as traditional solar panels.
