

New price quote for solar energy storage in Zurich Switzerland

Overview

Swissolar estimated the average price of battery storage systems at \$115 per kilowatt-hour in 2024, making them more affordable for homeowners. What is solar & storage live Zurich 2026?

After the great success of Solar & Storage Live Zurich 2025, we are delighted to invite you to join us again in 2026 – as we continue driving the transition towards a brighter, greener future! Our mission is to accelerate the adoption of solar energy propelling us towards a global landscape powered by clean, renewable energy sources.

How much does solar energy cost in Switzerland?

In Switzerland, the price paid for solar energy added to the grid varies widely, ranging from less than 4 cents to as high as 21.75 cents per kWh in 2022 in one canton alone. In 2022, Switzerland derived 6% of its electricity from solar power.

What is the future of electricity storage in Switzerland?

One important pillar of this strategy is the further development of electricity storage capacity in Switzerland. In the next years, three large-scale pumped hydro storage power plants will be connected to the grid. The first, the Limmern pumped storage plant (1 GW), should become operational in 2016.

What is solar & storage live?

Solar & Storage Live offers you a unique opportunity to connect with a large and targeted audience of Swiss solar professionals looking for the latest solar and storage products and services. Download the prospectus to discover more about why you need to be involved in this exciting opportunity to drive your business forward!
