

Outdoor energy storage solution in Cebu Philippines

Overview

What is a hybrid energy storage system in Central Visayas?

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply.

What is Central Visayas energy storage system?

Slated for commissioning in the first half of 2026, the facility is one of the first large-scale energy storage systems in Central Visayas. It aims to support rising power demand from industries and businesses in the area and enhance grid stability amid the energy transition.

Will Aboitiz Power build a hybrid battery energy storage system in Mactan?

Aboitiz Power Corporation (AboitizPower), through its subsidiary East Asia Utilities Corporation (EAUC), is set to construct a 30-megawatt (MW) hybrid Battery Energy Storage System (BESS) within the Mactan Economic Zone, reinforcing efforts to improve grid reliability in the Visayas region.

Where is EAUC building a 30-MW hybrid battery energy storage system?

The 30-MW hybrid Battery Energy Storage System will be built inside the compound of EAUC's facility at the Mactan Economic Zone in Lapu-Lapu City, Mactan Island, Cebu. /Contributed photo Pioneering large-scale storage system in Central Visayas
