

Payment Method for 100kW Folding Container Used in the Catering Industry

Overview

What is a catering container?

A catering container is a versatile structure that can be used both fixed and mobile, as our smaller catering container conversions can also be fabricated to be towed to different venues. We've converted several different sized containers for catering - ranging from small 10ft units up to full-size 20fts.

What size shipping containers do you use for catering?

We've converted several different sized containers for catering - ranging from small 10ft units up to full-size 20fts. We were approached by a client looking to use shipping containers at their site as pop-up retail units and office space.

How do I customise a catering container?

Customisation for catering containers usually varies depending on our client's requirements, but the standard conversion involves dry lining the container, installing electrics and lighting, internal plumbing for a sink, and the installation of a serving hatch/window. Design your own catering container then contact us with your specification.

Which supermarkets are launching catering services in China?

come to the fore in China's catering market. Increasing numbers of major domestic supermarket operators have introduced catering services into their retail outlets. Some pioneers include Alibaba's Freshippo supermarkets, Yonghui Superstores' Super Species stores, JD.com's
