

Phnom Penh s new solar container outdoor power

Overview

Will solar power boost Cambodia's energy share?

Phnom Penh, Cambodia — Cambodia is on track to significantly boost its solar energy share, with new figures projecting solar to make up 7% of the country's electricity supply by 2025. This equates to a total installed capacity of 530.14 megawatts (MW) —a major leap from 3.2% in 2023 and 4.6% in 2024.

Will Cambodia allow rooftop solar power in 2024?

PHNOM PENH, CAMBODIA (23 November) – One of the world's fastest growing countries recently launched Principles for Permitting the Use of Rooftop Solar Power in Cambodia, a document that will form the basis of a new regulation that will incentivize rooftop solar adoption, slated to be issued in early 2024.

Does Cambodia have a solar generation regulation?

In 2018, Cambodia introduced a solar generation regulation, a new driver for the country's solar PV system development. Cambodia's grid-scale solar development started with just a 10 MW pilot in 2017.

What is Cambodia national solar park?

Project Background and Description: The Cambodia National Solar Park has a total capacity of 100 MW and it aims to incentivize the development of solar energy in Cambodia.
