

Port Moresby 14th Bureau Energy Storage Project

Overview

How much does a fuel storage facility cost in Papua New Guinea?

Port Moresby, Papua New Guinea - The United States, through the Department of Defense, has awarded a contract worth approximately 400 million dollars (1.6 billion Kina) for construction of a large-scale fuel storage facility near Port Moresby Harbor. When completed, the facility will store more than 1.6 million barrels (264 million liters) of fuel.

Why is png building a fuel storage facility?

“This project reflects the strength of our bilateral relationship and is the result of ongoing dialogue and collaboration with PNG,” Yastishock said. The facility is designed to hold more than 1.6 million barrels—or about 264 million litres—of fuel, significantly boosting PNG’s energy security.

Why did the US invest in a fuel storage facility in PNG?

US Ambassador Ann Marie Yastishock announced that the investment was initiated in response to a formal request from the PNG Government. She highlighted that the facility would not only meet the country's fuel storage demands but also enhance the diversity of fuel options available in the market.

What is the Papua New Guinea fuel storage initiative?

This initiative, managed by the Department of Defense, will provide storage for over 1.6 million barrels of fuel. The development is a response to a request from the Government of Papua New Guinea to support its fuel storage requirements and diversify the types of fuel available in the market.
