

Price of Solar-Powered Containerized Base Stations in Southeast Asia Grid-Connected

Overview

Are solar powered base stations a good idea?

Base stations that are powered by energy harvested from solar radiation not only reduce the carbon footprint of cellular networks, they can also be implemented with lower capital cost as compared to those using grid or conventional sources of energy . There is a second factor driving the interest in solar powered base stations.

Why is Southeast Asia accelerating solar energy plans?

SINGAPORE (Reuters) – Southeast Asia is accelerating plans to harness energy from the sun in coming years as the cost of generating electricity from some solar power projects has become more affordable than gas-fired plants, officials and analysts said.
