We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below. Who is Stealth Power?

Stealth Power provides fleet electrification and off grid solar solutions for customers of all kinds.

Is a 40 ft container a good value?

They are graded as Cargo Worthy, Windwater Tight or As Is. As previously mentioned, Container Management, Inc. never sells As-Is condition containers. As a general rule of thumb, a used 40-foot standard container will be priced around 30% more than a used 20-foot container, of the same condition.

What is a new shipping container?

New shipping containers are pristine, and in most cases they've only made one trip from the manufacturer to their current location. This "one-way" journey means the container is in excellent condition, free from the wear and tear associated with frequent use. Here's the breakdown of costs for new shipping containers:.

What size shipping container do I Need?

Choosing the right size is critical as it impacts both cost and usability. The 20-foot, 40-foot, and 40-foot High Cube containers are the most common sizes for shipping containers that are to be used for export shipment or for storage. Both sizes are large enough to hold a substantial amount of freight and fit into loading slots on container ships.
