What is a 10 kW solar system?

These 10 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

Can a 10kW solar system save money?

1) Use all the solar electricity in your (huge) home or business: You would save approximately \$4400 in the first year. But 100% self-consumption for a household is unlikely; there will be times when your 10kW system is exporting to the grid. 2) Export half the electricity: You would save about \$2750 in the first year.
