

Prices of multicrystalline solar panels in Ireland

Overview

How much do solar panels cost in Ireland?

In this blog, we will explore how much solar panels cost in Ireland, what factors affect the actual cost and help you increase your property value. Who Is Eligible for the Solar Electricity Grant?

The average cost of solar panels in Ireland will be approximately €7,800 with the SEAI grant or €9,600 without it.

What happened to solar panels in Ireland in 2023?

In May 2023, the Irish government abolished the 13.5% VAT on the supply and install costs of solar panels, instantly cutting about €1,000 off the average installation cost. Prices remain much the same this year compared to last. The grant has come down over this period so this points to a modest reduction in costs.

Are polycrystalline solar panels a good choice in Ireland?

For Irish homeowners looking for a cost-effective and durable solar option, polycrystalline panels offer a good mix of affordability and performance. These blue-toned panels, made from multiple silicon crystals, work well in Ireland's often unpredictable weather.

How much do bifacial solar panels cost in Ireland?

Bifacial solar panels are changing the game for Irish homeowners by generating power from both sides of the panel. They capture not only direct sunlight but also reflected light, making them a great fit for Ireland's often cloudy weather. A typical 4 kW bifacial system in Ireland costs between €8,000 and €12,000, including installation .
