Overview

Is there a subsidy on off-grid and hybrid solar systems?

As per new policies, there is no provision of subsidies on off-grid and hybrid solar systems. Please Note: The solar subsidy policies vary according to state. So please confirm the subsidy rates with your State Solar Department before installing the solar system.

Can a smart design approach be used for off-grid solar PV hybrid systems?

It is now possible to adopt a smart design approach for off-grid solar PV hybrid systems instead of the conventionally straightforward designs that have been used in many areas for various applications.

Which solar panels do you use?

We use the highest quality solar panels, including LG, Peimar, and Canadian Solar; these solar panels harvest the sun's power and store the energy in high-quality lithium batteries, controlled with an external BMS. Then the power is distributed using Victron Multiplus units, so this inverter/charger can transfer the power.
