

Roof-mounted solar tiles

Overview

What are solar roof tiles?

Unlike traditional solar panels that are mounted on top of a roof, solar roof tiles replace the traditional roofing material itself, offering a seamless design that blends into the structure of your home. This innovative roofing system allows homeowners to enjoy the benefits of solar energy without compromising on aesthetics.

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

What are volt solar roof tiles?

Volt solar roof tiles generate clean energy while preserving your home's design. The system replaces traditional roof tiles with solar technology that sits within the roofline. The result is seamless integration without visible panels or bolt-ons. Understand Volt. Paired roof tiles. Partner with Volt to bring solar roof tiles to your projects.

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.
