

San Diego solar container outdoor power Specifications

Overview

How do I get solar energy in San Diego?

This page outlines solar PV incentives, financing mechanisms, permitting process, and interconnection information for the City of San Diego and the utility that serves its territory, San Diego Gas and Electric. Qualified contractors are your key to getting the most productive solar energy system for your home or business.

Do I need a permit to install solar panels in San Diego?

If all documentation and fees are correct, the City of San Diego will approve a permit for your PV installation and installation of the system can begin. Upon completion of your installation, the City of San Diego must inspect your solar installation.

What are the requirements for a solar PV system?

PV systems shall comply with all applicable requirements, City ordinances and regulations including zoning, structure height, FAA notification and condition of prior development permits governing the site. Provide one copy of the General Application (DS-3032). The template was developed to guide you in preparing residential solar PV plans.

Does San Diego have to inspect a solar installation?

Upon completion of your installation, the City of San Diego must inspect your solar installation. For additional helpful information on inspections, please refer to the Residential Photovoltaic Systems Inspection Guidelines.
