

Simplified container base station with power distribution cabinet

Overview

What is container type unitized compact substation?

Container type unitized compact substation Container type unitized CSS compact substation is a complete type tested per latest IEC standard 62271-202 which is comprising a outdoor enclosure containing medium voltage (MV) switchgear, power or distribution transformers, low voltage (LV) switchboards.

What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas with high pollution, high humidity, extreme temperatures or sand storms. Containers are easy to transport and fast to install, by reducing foundation works as well as installation and commissioning effort on site.

What is an e-house substation?

E-houses substations are equipped with medium- and low-voltage equipment, AC-UPS and DC systems with batteries installed in a separate battery room. The integrated HVAC system maintain the indoor temperature even at -39°C and the split-systems are supporting peak cooling during summer.

What is a multi-function ICT container?

Customized multi-function ICT containers, making outdoor data center suitable for living and office needs. One stop solution, integrating racks, monitoring, cabling, power, fire control and air-conditioning systems. Pre-engineering design, 1-week fast deployment, no building required, only construction field, power and network connection needed.
