

# Site Energy Solutions

## Overview

---

What is site energy?

Real-time Performance Tracking. Carbon Savings. Site Energy is the first low-cost solution for large commercial buildings to track, measure, and validate the performance of building energy use, energy efficiency performance, and carbon emission reductions in real-time. The easiest real-time energy tracking solution for buildings.

Who is site energy services?

SITE Energy Services is fully integrated energy infrastructure provider with a broad range of in-house capabilities serving the energy markets across British Columbia, Alberta, Saskatchewan and Manitoba.

How does site energy install hardware & software?

Site Energy's hardware and software installation are simple and easy. Our hardware integration communicates wirelessly with your utility meter and needs just internet and power to an accessible location in your electrical room. Contact us today!
