

# **Solar container battery companies stop production**

## Overview

---

Why did Panasonic discontinue its solar & battery storage business line?

Panasonic said it would honor all warranties, and customers can email the company for support. “We have made the decision to discontinue our solar and battery storage business line. This change allows us to focus on areas where we can have the greatest strategic impact.

Why did we discontinue our solar and battery storage business line?

Re-read that warranty information here. “We have made the decision to discontinue our solar and battery storage business line. This change allows us to focus on areas where we can have the greatest strategic impact. We remain confident in the technology and grateful to our partners and customers who have supported this journey.

Is Panasonic discontinuing its evervolt solar & battery storage product line?

Another one bites the dust: Panasonic is discontinuing its EverVolt solar and battery storage product line. The company sent a letter to dealers on Monday, but noted they will continue to honor warranties. Re-read that warranty information here. “We have made the decision to discontinue our solar and battery storage business line.

Does Panasonic still make solar cells?

We covered Panasonic’s planned phase-out of solar production back in 2022 on the NRG Learning Center, when the company first announced it would stop manufacturing solar cells. Now, as of early 2025, Panasonic is formally withdrawing from all solar and energy storage business activities globally. In this post, we’ll explore:
