

Solar energy storage in New York USA

Overview

How many solar and energy storage projects are there in New York?

Governor Kathy Hochul today announced awards for 22 large-scale solar and energy storage projects in New York. These projects will deliver enough clean, affordable energy to power over 620,000 New York homes for at least 20 years.

Does New York have energy storage?

New York's nation-leading Climate Leadership and Community Protection Act (Climate Act) calls for 70 percent of the State's electricity to come from renewable sources by 2030 and 3,000 MW of energy storage by 2030. Below are three sources to explore the State's installed storage. Gain a holistic view of the storage installed in New York State.

What is New York state's energy storage plan?

New York State aims to reach 1,500 MW of energy storage by 2025 and 6,000 MW by 2030. Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers.
