

Solar fan manufacturer in Tampere Finland

Overview

Where are Koja fans made?

High-quality fans and air solutions work reliably in demanding industrial processes and applications. Koja's production facilities are located in Jalasjärvi and Tampere. The operations of both manufacturing plants are based on in-house product development and design and testing, customized to client orders.

Who is fanax Oy?

Fanax Oy is ventilation specialist and importer in Finland. We represent high-quality products from manufacturers SEAT, Rosenberg, Venplast and Torin-Sifan. We will help you to find correct product to your application. Our offering includes also ATEX-rated fans for explosion proof environments. Our website is being renewed.

Who makes Salo solar panels?

Salo Solar designs, sells and builds comprehensive turnkey solar electricity systems. Salo Tech manufactures and sells high-quality Finnish SALO® solar panels. Salo Automation designs and builds production lines and machines meant for the production of solar panels. Salo Energy builds solar parks and invests in local solar electricity.

Why should you choose solar Finland?

Solar Finland and its subsidiaries with strong long-term background are experts in all aspects of solar energy. Our extensive know-how and experience of over 40 years make it possible to develop in different areas making our products and services competitive in the solar energy markets both domestically and abroad.
