

Solar panels installed for home use in Niger

Overview

Where is solar energy used in Niger?

Solar energy is well-suited for use in Niamey and Zinder, located at lower latitudes, as they show less variability in solar radiation throughout the year. Niger has a long history of solar energy use, which began in the mid-1960s with the establishment of the Centre National d'Énergie Solaire (National Solar Energy Centre; CNES).

Is solar energy installation uncommon in Nigeria?

Solar energy installation is not yet common in Nigeria. The major components or equipments for solar energy generation are solar panels and Inverter batteries. These two items are the most expensive equipment for solar energy installation. The capacity of solar energy in Nigeria is dependent on these two items mentioned.

Are there any off-grid solar energy systems in Niger?

Yes, there is considerable experience of off-grid solar energy systems in Niger. These include off-grid PV electrification, water pumping, and solar water heating systems. The main decentralised renewable energy system promoted in Niger for rural electricity is solar PV.
