

# Solar power with grid backup in Ghana

## Overview

---

Where in Ghana is solar power installed?

ned for sanitation purposes only. Other systems have been installed at Ghana Oil Palm Development Company (GOPDC) and HPW Fresh and Dry (at Adeiso in the Eastern Region), which also lude units for power generation.

1.5.2 Decentralized Renewable Energy Systems At the end of 2015, more than 10 MWp of stand-alone solar PV sy.

How many net-metered rooftop solar PV systems will be installed in Ghana?

In addition, 12,000 net-metered rooftop solar PV systems will be installed nationwide to support Ghana's transition toward a greener energy mix. Hon. Jinapor acknowledged the resilience of the people in remote communities without electricity who have long awaited connection to the national grid.

How does the government support the solar sector in Ghana?

The government supports the solar sector in Ghana through exemptions of duties and VAT, similar to subsidies. Specifically, all imported solar panels are VAT free. Industrial/energy plant, machinery or equipment have an import duty exemption. Lastly, all off-grid solar system components benefit from VAT exemptions.

How are solar PV systems used in Ghana?

tems have been installed in Ghana. These are being used for inter alia, lighting, water pumping, powering of computers for the teaching and learning of ICT and vaccin refrigeration across the country. Over 70,000 sol r lanterns have been disseminated. Stand-alone solar PV systems are market driven in Ghana, spurred by government and donor support
