

Solar powered portable outlet in Auckland

Overview

Why should you buy a portable power station in New Zealand?

New Zealanders love staying connected while they're out and about on holiday. Our range of portable power stations and solar-powered products ensures your devices are constantly charged on the go. Get the amps you need on-location and enjoy freedom from noisy generators. Shop for portable power solutions at Trade Tested online.

What is a portable power station?

A portable power station, often referred to as a portable power generator or power bank. A compact device that stores electrical energy and can supply it to various devices through multiple output options.

Which portable power station should I buy?

The ideal portable power station to buy depends on which devices you plan to use and how long you will travel without access to a recharging point. Our 1526Wh power station offers triple the power capacity of the 555Wh model, making it the best choice for people continuously on the road or whose camping trips last longer than the weekend.

What is a plug n free solar system?

Designed, developed and made in New Zealand this doesn't only makes off-grid installations cheaper and faster, this opens a door for complete new applications of solar power. The "Plug 'n' Free" system brings power everywhere you find a sun exposed flat surface. It is built rock solid and solves all problems of components integration.
